

**EXECUTIVE COMMITTEE
COLLEGE OF NATURAL AND AGRICULTURAL SCIENCES
REPORT TO THE RIVERSIDE DIVISION
MAY 24, 2022**

To be adopted:

Proposed Changes to Biochemistry

PRESENT:

PROPOSED:

Major

The three emphases areas within the Biochemistry major are Chemistry, Biology, and Medical Sciences. The Biology and Chemistry emphases are for students interested in postgraduate education or employment in the basic areas of the discipline of Biochemistry. The goal of the Medical Sciences emphasis is to prepare students for admission to postbaccalaureate education in the health professions. The Biology, Chemistry, and Medical Sciences emphases focus on the development of laboratory and critical thinking skills, and hands-on laboratory experience. In addition, participation in an independent research project (BCH 197) or research tutorial (BCH 190), carried out under the supervision of a faculty member, is encouraged. Internships in industry (BCH 198I) are also available, and often lead to valuable job experience and employment opportunities.

[no change]

The department offers both B.A. and B.S. degrees. The major and emphasis requirements are the same for both, and most students choose the B.S. degree. The B.A. degree requires 12 additional units of Humanities and Social Sciences courses, and 16 units or a course 4 equivalency level of a foreign language (see College Breadth Requirements).

[no change]

Note: A maximum of 12 units of 190-199 courses may be counted toward the 180 unit graduation requirement. All courses used towards the Biochemistry major requirements must be taken for letter grades.

[no change]

Transfer Students

Transfer students desiring to major in Biochemistry must have completed: [no change]

1. Two quarters of calculus, equivalent to MATH 009A and MATH 009B [no change]

2. A year of general chemistry, equivalent to CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, CHEM 01LC [no change]

3. A year of organic chemistry, equivalent to CHEM 008A, CHEM 08LA, CHEM 008B, CHEM 08LB, CHEM 008C, CHEM 08LC [no change]

4. A course in general biology, equivalent to BIOL 005A and BIOL 05LA [no change]

Strongly recommended but not required for admission to the major are: [no change]

1. General Biology, equivalent to BIOL 005B and BIOL 005C [no change]

2 One quarter of Ordinary Differential Equations, equivalent to MATH 046 [no change]

3. General physics (calculus-based) equivalent to PHYS 002A, PHYS 002B, PHYS 002C or PHYS 040A, PHYS 040B, PHYS 040C [no change]

Students must have a minimum grade point average of 2.70 in transferable college courses. [no change]

University Requirements

See Undergraduate Studies section. [no change]

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section. [no change]

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a department advisor for course planning. [no change]

Major Requirements

The major requirements and the emphasis requirements are the same for the B.A. and the B.S. degree in Biochemistry. Choose one emphasis. All upper-division courses presume completion of the life sciences core curriculum.

Continuation in the major requires that the student maintains cumulative and upper division/science GPAs of 2.00 or higher, a GPA of 2.00 or higher in each academic quarter, and makes adequate progress in the major with no more than 16 units of repeated courses. Adequate progress in the major is defined as (a) earning no grade lower than a “C-” in any required lower division mathematics or science course, ~~STAT 100A~~, CHEM 008A, CHEM 08LA, CHEM 008B, CHEM 08LB, CHEM 008C, CHEM 08LC, or any upper division BCH course, and (b) completing MATH 009B and CHEM 001A by the end of the Fall Quarter of the second year of residence and BCH 110A or BCH 110HA, and BCH 110B or BCH 110HB, by the end of the third year of residence. Freshmen must also complete BCH 095 with a grade of “S” during their first year of residence. Freshmen in the Medical Science Emphasis must also complete BCH 096 with a grade of “S” during their first year of residence. A student who does not meet these adequate progress standards will be discontinued from the major. In addition, a student who receives a grade of “D+” or lower in any two of the courses in (A) on the first attempt, or in any one of these courses in each of two attempts, will be discontinued from the major. Students who receive a grade lower than “B-” in BIOL 005A or CHEM 008A are strongly encouraged to complete BCH 100 during their second year of residence to better prepare themselves for BCH 110A or BCH 110HA, BCH 110B or BCH 110HB, and BCH 110C or BCH 110HC.

Biology Emphasis

1. Lower-division requirements (~~71~~ units)

- a) BCH 095 or equivalent, BCH 015
- b) BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C
- c) CHEM 001A, CHEM 01LA, CHEM 001B,

Graduate and upper-division courses can be substituted with permission of the instructor and the faculty advisor. Graduate courses require a GPA of 3.0 or greater in the sciences.

Students should be aware that CHEM 005 is often a requirement for admission to professional schools.

Justification:

The Statistics department renumbered STAT courses to better reflect the course level, as well as the true sequencing of courses. STAT 100A was renumbered to STAT 010 with an effective term of Fall 2021. STAT 010, as a lower division course, is moved to the lower division requirements.
