Continued Review of AY21-22 Carryover Grievance

The Committee reviewed the current status of a grievance received in Winer 2022 that was put in abeyance in July 2022 pending the outcome of an investigation into allegations of research misconduct. The Committee requested and received investigation documents from the Office of VC-RED and the Grievant's response documents. Following review, the committee made a determination on the original grievance submittal (positive on prima facie with next step a determination on sufficient reason) and the revised grievance submission (negative prima facie). The Respondent will be provided an opportunity to respond to the allegations in the original grievance before final determination by the committee.
