Continued Review of AY21-22 Carryover Grievance

The Committee continued review of the current status of a grievance received in Winer 2022 that was put in abeyance in July 2022 pending the outcome of an investigation into allegations of research misconduct. Prior to the meeting, a member indicated concerns about the timing of materials provided by the Grievant in January 2023 being made available just prior to the January 30, 2023 meeting. Chair agreed to bring this back to Committee for discussion and vote. The Committee discussed investigation documents from the Office of VC-RED and documents from the Grievant. After discussion and vote the Committee decided there is not sufficient reason to go forward to a formal hearing (5+ 0- 2 abstentions 1 absent).
