Review/Approval of Meeting Minutes

The minutes from the meetings on May 28, 2026 were approved by a vote of +5-0-1.

Case Discussion

The Committee discussed whether to reconsider a case received in February 2026 following a negative probable cause determination, in light of additional information submitted by the Complainant. Following discussion, members voted unanimously to reconsider the case. The Committee will request additional information from both parties before making a final determination on probable cause.

The Committee conducted an "if true" review of a case received in May 2026. The Committee unanimously determined that, if true, the allegations would not constitute a violation of the University's policy on Faculty Conduct. The Committee will communicate its determination to the VPAR.
