RE: Proposal for a BS/MS Joint Five-Year Combined Degree Program in Statistics

At its December 14, 2020 meeting, Executive Council reviewed and was supportive of the proposed BS/MS Joint Five-Year Combined Degree program in Statistics. The reviewing committees were supportive of the proposal; however, the Graduate Council noted a couple typos and has a clarifying question about the unit providing financial support for enrolled students. Please address these concerns and submit a revised proposal. Please be sure the revised proposal is not in track changes as it will be forwarded to the Division and the Office of the President for final approval.

I attach responses from the Committee on Courses, Committee on Diversity, Equity, and Inclusion, Committee on Educational Policy, Graduate Council, Committee on Planning & Budget, and the Committee on Undergraduate Admissions.

Thanks,
Jason

Re: [Campus Review] Proposed Degree Program: 2nd Round - Joint Statistics BS /
Statistics MS Five Year Combined-Degree Program

The Graduate Council discussed the revised proposal for a Joint Statistics BS/MS Five Year Combined Degree Program at their November 19, 2020 meeting. The Council was supportive of the revised proposal but noted the following minor typos.

- In the Introduction section the word “to” is missing between “prior” and “the student’s”. It should read “...prior to the student’s...”.
- In the Introduction, the yellow highlighted sentence is unclear. Does the program mean “neither/nor” or “or”? Will neither unit provide financial support for students enrolled in the program? This should be clarified.
