Re: [Campus Review] Proposal for a New Master Degree in Supply Chain and
Logistics Management

The Committee on Library and Information Technology reviewed the [Campus Review] Proposal for a New Master Degree in Supply Chain and Logistics Management.

The committee reviewed this proposal, which indicates that Library and IT support will come from the indirect cost revenue generated by the program. Specifically, it is stated that Library acquisitions and computing are allocated in the line "Instructional Databases, IT & Course Materials". Unfortunately, this line is not provided in the Financial Table referred to; however, it is stated that revenue will be distributed according to principles used for other SoBA courses.

Notwithstanding the lack of detail, the proposal does not appear to impose any undue burden on Library and IT resources, thus from this perspective the committee approves the proposal.
