Committee on Diversity & Equal Opportunity

Re: Proposal: (Revised) Pilot Program for Globalizing Undergraduate
Students' Learning Experience

The committee considered the revised Pilot Program and wholeheartedly supports the initiative and the objectives of the program. However, CoDEO notes that these undergraduate opportunities should be equally accessible to all students not just those that can afford to travel. CoDEO respectfully requests additional information on the campus process for students to participate and specific logistics of the program. CoDEO also recommends the inclusion of cultural sensitivity training and preparation for any student approved for the program prior to traveling.
