Re: Systemwide Review. Proposed New APM-011

The Committee on Academic Personnel considered the proposed new APM-011 (Academic Freedom, Protection of Professional Standards, and Responsibilities of Non-Faculty Academic Appointees). The Committee has no objections to the proposed APM. However, it notes the need for clarification on the modification to include at least one academic appointee in the same job title series as a reviewer. It is unclear whether this person will serve as an individual reviewer or be part of review panel.
