Committee on Academic Personnel

Re: Reconsideration of Changes Made to APM 120

CAP discussed the proposed APM revision for reconsideration of changes made to APM 120 regarding conferral of Emerita/Emeritus Titles at its meeting on April 22, 2020. CAP believes that all Senate faculty (in good standing), including those with Senate Health Sciences titles and Security of Employment Lecturers, should receive an automatic conferral to emeritus/emerita status. The proposed revision will remove the need for an additional review of retiring faculty by CAP.
