Re: Innovative Learning Technology Initiative (ILTI) Review

CAP discussed the report from System-wide Review about Innovative Learning Technology Initiative (ILTI) and concurred with the recommendations made in the report. CAP suggests that the future practice of the UC Online program should also take into account, the impact of instruction in the online format on the teaching evaluations of the faculty teaching these courses, and the ensuing consequences on merit and promotions. From a faculty perspective, the CAP members felt that the UC Online program should also take into consideration, the effect of the UC Online program on faculty workload management.
