### **COMMITTEE ON EDUCATIONAL POLICY**

December 8, 2020

To: Jason Stajich, Chair  
Riverside Division

From: Stefano Vidussi, Chair   
Committee on Educational Policy

**RE: Innovative Learning Technology Initiatives (ILTI): Recommendations for Future State Report**

The Committee on Educational Policy reviewed the Innovative Learning Technology Initiatives (ILTI): Recommendations for Future State Report at their December 4, 2020 meeting and engaged in a robust discussion.

The Committee was supportive of decentralizing the ILTI program so that each campus had autonomy for the program on their campus. Additionally, members recommended that campuses establish testing centers to ensure that tests are secure and rigorous.

The Committee was not supportive of the recommendation for UCOP to provide best practices for the instruction of online courses and instead recommends that UCOP defer to faculty for how best instruct their courses.

Concern was noted by the Committee regarding the outdated data included in the report and a recommendation was made to include more up to date findings. Additionally, members noted that the report did not include a representative sample of faculty

Lastly, members recommended that the review of ILTI be halted until evaluations of the current remote mode of instruction are evaluated.
