Committee on Library and Information Technology

RE: Proposed Presidential Policy, Business and Finance Bulletin, IS-12 IT Recovery

The committee reviewed the proposal and received input from different members of the IT department. Overall, the committee supports the policies recommended by the report and seeks to underscore the importance of a systemwide Recovery Plan. Since the policy is sound and an IT recovery plan seems essential to the functioning of a research university, it is important to emphasize the issue of funding. Sufficient funding should be allocated for this policy to succeed and that funding should take into account the different revenues/staff needs/support of ITS services across the UC's.
