Re: [Campus Review] Campus Guideline Proposal: 3rd Round - Proposed New Guidelines for Courses and Instruction

Graduate Council reviewed the third revision of the Proposed New Guidelines for Courses and Instruction at their October 20, 2022 meeting. The Council remains concerned that dual mode of instruction was not addressed in the revised version of the proposal. The definition for a hybrid course also still needs to be defined — how much hybrid is considered hybrid? Guidelines on this are needed. Will hybrid appear as a course type in the catalog? Online class time needs to be addressed. It would be helpful if the guidelines clarified a percentage (a defined number or range) of a course that constitutes it being labeled an online course.
