Re: [Campus Review] Proposed Revised R’Courses Policy

Graduate Council discussed the Proposed Revised R’Courses Policy at their May 18, 2023 meeting and was supportive but was concerned by the revised policy naming graduate students as “instructor of record” for R’Courses. The instructor of record should be the faculty member as it is with undergraduate students who teach R’Courses. The R’Courses policy language for the instructor of record should be the same as the language used for undergraduate students teaching R’Courses. If this is simply so graduate students can have access to iEval, and not to be interpreted as an instructor of record with Academic Senate rights, it should be stated in the policy. Perhaps instead the policy can refer to graduate students as “instructor in Banner”.
