SUBJECT: Response to Proposed Degree Programs in ENST and GCH Departments

Dear Sang-Hee,

The CNAS Faculty Executive Committee wants to address several concerns regarding the recent Major and Minor proposals in Environmental Studies and Global and Community Health. It has come to our attention that significant issues require consideration and resolution:

Regrettably, our concerns have not been adequately addressed during the processes underway, and the results are the development of a department that could potentially divert and confuse our students.

It has also come to our attention that there is a proposed change in the department's name from "Sustainability Studies" to "Environmental Sciences." Changing the name from "Sustainability" to "Environmental" may confuse current and future students. Therefore, it is recommended that we act or voice objections against this alteration. It seems reasonable to request reconsideration of the name change. We must collectively ensure that the department's name accurately represents its goals and scope.

Sincerely,
