**RE: [Campus Review] (Proposed Degree Program) 6th Round - Online Master of Business Administration (OMBA-SSGPDP)**

The Graduate Council reviewed the revised proposal for an Online Master of Business Administration at their November 21, 2024 meeting. The Council appreciates the changes that have been made to the proposal and would like additional information about the financial aspects of the proposed new program. The proposal's linked financial model only includes expenses for the School of Business, not the financial impact the program will have on the campus. For example, it would be helpful to have detailed financial information about the additional resources that will be needed from XCITE, the cost for non-state supported FTE, and the amount of revenue that the program will generate for the campus beyond what is needed to support it through campus resources. Graduate Council would appreciate receiving this financial information in one concise table, not web links. The proposal also includes a discrepancy in the year the program will start, this needs to be corrected.
