Committee on Educational Policy

Re: Proposed B.S. + M.S. in Computational Data Science

The Committee on Educational Policy (CEP) reviewed the proposal for a B.S. + M.S. in Computational Data Science at their June 8, 2026 meeting and voted to support the proposal.

The Committee recommends that the program update the proposal to correct the start date of the program, which is listed as F'26. Additionally, it is recommended that the program explain how the program will be advertised to transfer students. Lastly, the Committee recommends that a metric be established to increase diversity as it is one of the program's proposed outcomes.
